

Sublimation Printer @ The HUB

Print full-color designs that can be heat-pressed onto shirts, ornaments, and more!

Equipment used: Epson EcoTank 4850

Software used: Google Docs

Getting Started

Save the image you would like to print to a flash drive or attach it to an email to yourself so that it can be accessed at the Makerspace.

- **File format:** Basic image files (.JPG, .BMP, .GIF, .PNG, etc.) are preferred

All print jobs must be approved by Library staff and cannot violate copyrights. Images that are commercially available will not be accepted for print at The HUB.

- **Dimensions**

- T-Shirts and other fabric items

- You must bring your own item. Designs limited to 8" x 10-1/2".
- "Sublimation-Ready" items that are white and 100% polyester will have best results at the lowest cost; but any item made from cotton, polyester, or a blend of the two in any color can be used. In general, you'll get better results with more polyester content.

- 2-1/2" Round Ornaments

- Sublimate both sides!

- 1-7/8" Round Keychains
