

Sublimation Printer @ The HUB

Print full-color designs that can be heat-pressed onto fabric items!

Equipment used: Epson EcoTank 4850

Software used: Multiple programs are available, depending on the file and size of your design

Getting Started

Save the image you would like to print to a flash drive or attach it to an email to yourself so that you may access it on a computer in the Makerspace.

- **File format:** Basic image files (.JPG, .BMP, .GIF, .PNG, etc.) are preferred, but other file types may be supported
- **Dimensions:** Designs must fit on our 8.4" x 11" sublimation paper
 - If you would like to use our Cricut Maker for specialty cutting around your design, the max dimensions are 6.75" x 9.25".
- **Note:** All print jobs must be approved by Library staff and cannot violate copyrights. Images that are commercially available will not be accepted for print at The HUB.
